

# Decisions...Decisions

1 Day

Good decision making is an essential skill for career success. Learn to make timely and well-considered decisions. Use both logical and creative thinking processes to solve problems. Discover how you use thinking 'meta programs' to filter information, analyse data and make decisions. Gain hands-on experience using problem solving, planning and decision making tools.

## What you'll learn to do in this course

You'll come out of this session with powerful tools for making robust decisions. We'll bring theory to life and tell you how to succeed. A range of practical tips will be presented to you. You'll talk through examples and enjoy practical exercises. At the end of the course, you should be able to:

- Use your whole brain to solve problems
- Think laterally and logically
- Try out a range of dynamic thinking tools
- Beat problem-solving barriers
- Turn great ideas into practical action plans.

## Topics you'll cover

- What does sound decision making involve?
- How does a genius think?
- How to think logically and creatively
- Analysing your issue (fishbone diagram, random input process, sunlight test)
- Generating solutions (Picasso technique, reframing fan, option generator)
- Choosing the right option (decision tree)
- Overcoming barriers to problem solving.

“  
think  
learn?  
succeed

“Smart training for clever people”
