

Think Like A Genius

1 Day

Albert Einstein said: "Imagination is more important than knowledge". In this workshop both will be boosted to new heights. Combining logic with creativity, you will solve problems and spark new ideas like never before. Discover how you use thinking "meta programs" to filter information, analyse data and make decisions. Then find out how to increase the flexibility of your thinking and overcome barriers to problem solving. A great way to increase personal and team creativity!

What you'll learn to do in this course

You'll come out of this session with powerful tools for thinking creatively. We'll bring theory to life and tell you how to succeed. A range of practical tips will be presented to you. You'll talk through examples and enjoy practical exercises. At the end of the course, you should be able to:

- Use your whole-brain to solve problems
- Think laterally and logically
- Try out a range of dynamic thinking tools
- Beat problem solving barriers
- Turn great ideas into practical action plans

Topics you'll cover

- How does a genius think?
- Secrets of whole-brain learners
- Creativity Tool 1: simplex thinking
- Creativity Tool 2: Picasso overload technique
- Creativity Tool 3: reframing matrix
- Creativity Tool 4: random input process
- Creativity Tool 5: mind maps
- Overcoming barriers to problem solving

think
learn?
succeed

“Smart training for clever people”

What others have said about the course...

“Well presented course with good content and practical application.”

“Great mix of theory and tasks. Really helpful to have so many tools in workbook.”

“Eleanor’s knowledge of the subjects was very thorough and she was very engaging when she spoke. She was very good at gauging the energy levels in the room and managed this.”
